Carlos Alonzo

2 + years of experience in designing and developing user interfaces, testing, debugging, and parameterizing of processes. Analytical skills and strong attention to detail in order to deliver original and efficient web solutions. Proficient in liaising with key stakeholders including team members and remote clients to effectively conduct requirement gathering and optimize solutions as per client requirements. Build new websites from start to finish. Able to effectively self-manage during independent projects, as well as collaborate in a team setting.
